TO WHOM IT MAY CONCERN

REF: INTRODUCTION OF NURU NJEMA TANZANIA.

Nuru Njema Tanzania a newly National Non – Governmental Organization with its Head Office at Songea Town in Songea Municipal Council – Ruvuma Region, Tanzania. This Organization is well known to us as it is dedicated to improving the livelihood of Tanzania populations through education, health, environment, socio – economic and empowerment initiatives. It employs a dynamic approach bringing together public and private stakeholders in order to address the development challenges facing the communities and hence propel the development agenda to the same. The commitment of the Organization however, requires a considerable support and help from all development partners within the existing phenomena.

Since its registration, the Organization is very close to Songea Municipal Council as well as to other Local Government Authorities in Ruvuma Region and elsewhere in Tanzania in terms of communication and report systems.

(This NGO was registered on 10/08/2021 With No-00NGO2124)

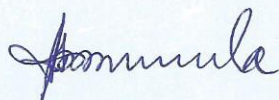

Important in its dynamism, Nuru Njema Tanzania has invested in the development of a forward-thinking Strategic Plan that is to address the community development challenges as well as create a roadmap for sustainability of the Organization and Programs. Such a Plan will account for strengthening the well-established Programs, create an innovative and developmental organizational culture so as to develop new sustainable activities and incorporate a diversified approach to community problem solving.

To our note, Nuru Njema Tanzania has competent and experienced staff in the above-named fields so to say.

Having said that, it is to our sincere hope that if given the opportunity and chance to implement project activities, the Organization will do to the best of everybody's expectation.

Thank you for your continuous help and cooperation

With best regards,

Andrew J. Mkanula
